

BEANS & BARLEY MARKET & CAFE, MILWAUKEE, WISCONSIN

## BEANS & BARLEY MARKET & CAFE, MILWAUKEE, WISCONSIN

The original Beans & Barley, a popular vegetarian cafe and market created in the '70's, was housed incongruously in a rough, wood frame building, once the home of a western style steak house. When the building burned in 1993, only the foundation survived. The design of the new Beans & Barley uses a structural grid based on that original foundation. Within the grid, zones are defined to serve restaurant, market and back-of-house functions.
