

COLTON PALMS, COLTON, CALIFORNIA

## COLTON PALMS, COLTON, CALIFORNIA

This senior housing project departs from the tradition of affordable elderly housing in its approach to achieving several social objectives. The complex is divided into a variety of independent residential units, public buildings and public spaces, the integration of which creates a town within a town. This design connects the elderly yet highly independent residents of the complex to the town of Colton, while providing them with a sense of privacy, security and community.
