

EQUITY OFFICE PROPERTIES TRUST HEADQUARTERS RENOVATION, CHICAGO, ILLINOIS

EQUITY OFFICE PROPERTIES TRUST HEADQUARTERS RENOVATION, CHICAGO, ILLINOIS

The largest REIT in the nation, this company's recent growth resulted in office spaces scattered in the old Daily News building, built in 1929 and owned by the company. The project included the re-programming of all their spaces, writing and implementing new corporate facility standards, then re-stacking ten floors of the building. In addition to new ceilings and finishes, the data and electrical systems were updated to state of the art standards. During renovation, operations were not interrupted for one day.
