

KILBOURN ROW, MILWAUKEE, WISCONSIN

KILBOURN ROW, MILWAUKEE, WISCONSIN

This residential development nestles eight townhouses on a 7,620 square foot site. The patterning of three level and two level units is enclosed by an exterior shell which maintains an integrated exterior facing Kilbourn Avenue. Located across the street from the Milwaukee Women's Club, the geometry of the facade adopts this building's traditional gabled form. The project was recognized as one of the city's ten best in a survey of architectural historians conducted by the Milwaukee Sentinel newspaper.
