

LANTE CORPORATION REGIONAL OFFICES, UNITED STATES

## LANTE CORPORATION REGIONAL OFFICES, UNITED STATES

The national rollout for Lante, a solutions leader in the e-commerce arena, required the design and construction of 10 new regional offices in one year. The offices have the ability to incubate client's server functions during design and development. VDTA managed the site selection, lease negotiations, design, budgeting, purchasing services, construction management and move-in within a timeline of 14 weeks. VDTA also managed all the networking aspects of each office including equipment purchasing.
