

### **LASALLE-WACKER OFFICE BUILDING RENOVATION, CHICAGO, ILLINOIS**

This 39-story Art Deco office tower located along the Chicago River was renovated to meet the increasing competition from new buildings in the surrounding area. The objectives of the program were to strengthen the visual impact of the entrance and enhance the interior public spaces. Lobby improvements included an expanded retail area, and new finishes to evoke the Art Deco era. Tenant corridors and elevator cabs were remodeled to complement the lobby. Exterior improvements included new windows, cleaning the exterior limestone and renovation of the building's original distinctive clock.
