## SCHOOL OF SPEECH, NORTHWESTERN UNIVERSITY, EVANSTON, ILLINOIS

VDTA renovated a significant portion of the Searle Building at Northwestern University. The renovation was guided by an initial master plan for the entire building. This plan was developed to simplify confusing circulation by reconfiguring a labyrinth of narrow, dark hallways into wide, straight corridors. The project remodeled outdated clinical labs and under-utilized common areas into functional office suites for the Dean, Undergraduate and Departmental offices, new 'smart' classrooms, and student lounge spaces.
