## SIXTEEN AT TRUMP HOTEL, CHICAGO, ILLINOIS

The Trump Hotel's main lobby is on the sixteenth floor, where the first of three building setbacks of the 90-story Trump Tower yields a large outdoor space with spectacular views up and down the Chicago River. The 5,000SF Signature restaurant takes full advantage of its setting, with three distinctive private dining rooms, each focused on a special view; one toward the lake, the other upriver, and the third looking directly at the landmark Jewelers Building across the river. A 4,500SF outdoor terrace provides seasonal dining in this special setting.
