

TURNER CONSTRUCTION COMPANY OFFICES, CHICAGO, ILLINOIS

## TURNER CONSTRUCTION COMPANY OFFICES, CHICAGO, ILLINOIS

Contractors have the reputation of casting doubt on the wisdom of almost any design. For the offices of Turner Construction Company, the design and contracting team formed a partnership to develop an appropriate image for this large contractor. The palette of materials was kept simple, reflecting a sense of economy of means. The dominant feature is a rippling plane of galvanized metal decking passing overhead from one end of the office to the other.
