

USG SOLUTIONS CENTER, CHICAGO, ILLINOIS

## USG SOLUTIONS CENTER, CHICAGO, ILLINOIS

This phased loft renovation creates a unique customer sales center which creatively showcases USG's interiors products, including ceiling systems, wall systems, and raised flooring. The sales center is divided into a series of layers, each defined by a specific USG interiors product. The only element that disrupts the march of these surfaces is the reception area, which is filled with "glaciers" made of hundreds of stacked and sculpted ceiling tiles.
